TECHNICAL SKILLS

- Python
- Java
- C

TOOLS & FRAMEWORKS

- Pandas
- NumPy
- Scikit-Learn
- Matplotlib & Seaborn
- Streamlit
- n8n & Relay.app
- Git & GitHub

CORE COMPETENCIES

- Machine Learning & NLP
- Data Science & Analytics
- Artificial Intelligence
- Generative AI
- AI Agent Development
- Teamwork & Collaboration
- Problem Solving

LANGUAGES

EDUCATION

Bachelor of Engineering in Computer Engineering

Expected Graduation: August 2027

Dr. S. & S.S. Ghandhy Government Engineering College, Surat, Gujarat

EXPERIENCE

- Python Data-Science Intern** June 2026 - July 2026
Durvasa Infotech, Surat, Gujarat
 - Completed an intensive internship in Python, Data Science, AI/ML, delivering 20+ assignments and 3 projects.
 - Engineered an AI-powered Resume Screening System featuring ATS scoring, skill extraction, and candidate ranking.
 - Gained hands-on expertise in Python, Pandas, NumPy, NLP, and Machine Learning models.
- AI Strategy & Business Intelligence Intern** March 2026 - April 2026
CSRBOX Foundation, Surat, Gujarat
 - Completed a 6-week IBM SkillsBuild virtual internship covering Generative AI and AI application development.
 - Developed an automated Study Reminder System using relay.app as the final capstone project.

PROJECTS

1. AI-Powered Resume Screening System [\[Live Demo\]](#)

Technologies: Python, Streamlit, NLP, Machine Learning

- Developed an automated resume parser that extracts skills, experience, and project details from uploaded candidate CVs.
- Implemented intelligent ATS scoring algorithms to rank applicants and generate automated hiring recommendations.

2. Disease Prediction Helper [\[Live Demo\]](#)

Technologies: Python, Streamlit, Machine Learning, Healthcare Analytics

- Built an interactive diagnostic web tool to evaluate user-submitted medical symptoms and predict potential health conditions.
- Designed a simple, user-friendly Streamlit interface to provide fast, preliminary healthcare insights.

3. Interactive Battery Simulation Dashboard [\[Live Demo\]](#)

Technologies: Python, Streamlit, Data Visualization

- Engineered an interactive web application on Streamlit Cloud to simulate battery performance and degradation behavior.
- Integrated dynamic controls to visualize real-time operational parameters, efficiency curves, and performance metrics.

CERTIFICATIONS

- Green Skills & Artificial Intelligence**, EDUNET Foundation, 2025
- Programming In Java**, NPTEL, 2025
- Python for Data Science**, NPTEL, 2025
- Finishing School Programme**, KCG Foundation, 2026
- Advanced Green Skills & Artificial Intelligence**, EDUNET Foundation, 2026
